

Look Up & View the Landscape

Motto: "Stand still and you'll go backwards"

The Threat

Our Ethos:

Business support just for **You**, Now.

We **feel** unique, but look and sound the same.

Who *really* cares and why should **They**?

Should survival be the main strategic game?

THINKING THAT LIBERATED US

"You" = Established businesses with *new ventures*
(& fresh starts too but in key sectors)

"Them" = Local, State, Federal Govts, as *client investors*

"Us" = Incubator *without borders*

FACT

"Investors invest; when you prove why they should"

Every client engagement is an opportunity to gather this stuff...

Heavy lifting at 'tender time' ; doing what everyone else does: Perhaps not...

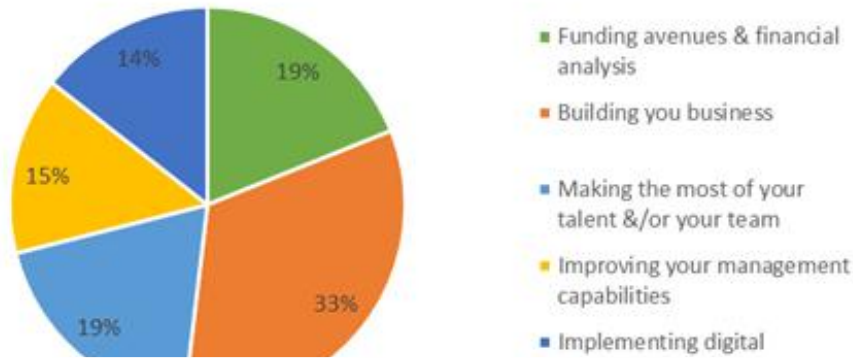

"To add value, you must first define it."
